# How To Make Out-Of-Town Calls

Out-of-Town calls can be completed almost as quickly as local calls, providing you give the telephone number when calling.

Keeping a record of Out-of-Town num-

bers frequently called will save time on future calls. If you wish to have the telephone numbers of a list of out-of-town subscribers, our Business Office will be glad to furnish them.

## OUT-OF-TOWN CALLS ARE OF TWO GENERAL CLASSES:

### Station-to-Station Calls

When you want us to do nothing more than to connect you with an individual line or party line telephone or private switchboard, call "Long Distance" and tell the operator the city, state and the telephone number. If you don't know the number, give the operator the name and address as for example: "St. Louis, Missouri, ANY-ONE at Read's Department Store, 2100 Broad Street." Give your number when the operator requests it.

The charge for a Station-to-Station call begins when the called telephone or private switchboard answers.

Station-to-Station service should be used when you are willing to talk to ANY-ONE answering the called telephone or when you are sure the person with whom you wish to talk will be there.

See the next column if you want to call either a particular person or a particular telephone or department reached through a private switchboard.

### Person-to-Person Calls

When you want to be connected with some particular person or with a particular telephone or department reached through a private switchboard, call "Long Distance." Tell the operator the city, state, and person or department wanted, and also the telephone number and extension number if you know them. Give your number when the operator requests it.

The charge for a Person-to-Person call begins when you reach the person, extension, or department you want.

Appointment and Messenger calls take Person-to-Person rates plus the cost of any messenger service performed. Messenger charges incurred are to be paid whether or not conversation is held.

## Day, Night and Sunday Rates

**DAY RATES** apply to Station-to-Station and Person-to-Person calls between 4:30 A.M. and 6:00 P.M. on all days except Sunday.

**NIGHT and SUNDAY RATES.** Reduced rates apply between 6:00 P.M. and 4:30 A.M. daily and all day Sunday if the initial period rate exceeds 50 cents for a Station-to-Station call or 75 cents for a Person-to-Person call.

The time of day, at the originating point, when conversation starts, determines whether **DAY** or **NIGHT AND SUNDAY** rates apply.

## Collect Calls

A COLLECT CALL is a Station-to-Station or Person-to-Person call, for which you wish to have the subscriber at the distant point pay the charges. The regular Day, Night and Sunday rates for Person-to-Person and Station-to-Station calls apply except that:

On collect Station-to-Station calls where the initial period rate is less than

20 cents, a flat additional charge of 10 cents applies, and where the initial period rate is 20 cents the collect rate is 25 cents.

A request to make a call collect should be given to the operator when the call is placed, so that she can endeavor to obtain acceptance of the charges before the connection is established.

---

## Requests for Rates and Charges

On request, the operator will quote the rate to any out-of-town point. If you wish to be told the charges on a particular call,

make the request when you place the call or when you accept a "collect" call. The operator will call you back and quote charges.

---

## International and Ship Telephone Service

Telephone service is available from your telephone to certain foreign countries, subject to such limitations with respect to completion as may be enforced from time to time by the government of such country or by the United States Government.

Telephone service is also offered to a

great many ships on inland waterways, and to many ships in coastal waters and at sea, when they are within reach.

Rates and further information concerning International and Ship-to-Shore telephone service may be secured or calls may be placed by calling "Long Distance".

---

## Mobile Telephone Service

A Bell System service which provides two-way voice communication between any telephone reached by the Bell System and an automobile, truck, boat, etc., suitably equipped with a mobile radiotelephone is now established.

To place a call to a mobile telephone call Long Distance and ask for the Mobile Service Operator.

For rates or other information regarding mobile telephone service please call the Business Office.

## "BEEP" Tone Tells When Telephone Conversation Is Being Recorded

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are

saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.
